

Malaga Station (Oordal Kalla)

Malaga Station will provide connections to the suburbs of Landsdale, Alexander Heights, Ballajura, Malaga and Bennett Springs. Travel time between the station and the Perth CBD will be just 21 minutes and the new transport hub will connect passengers to the Malaga industrial and employment centre. The Noongar Place Name for Malaga is Oordal Kalla (Oord-al Kal-la) and the narrative is 'clan of Yallagonga'.

Station design

Designed to be a 'station within a park', the design draws on the surrounding parklands and banksia bushlands. As the first significant building in the future Malaga town centre, the architecture and scale considers the future opportunities for the Malaga Station Precinct.

Platform and access

The raised station concourse provides connections to the ground-level station platforms via lifts and stairs. Perforated screening also provides weather protection while maintaining visibility.

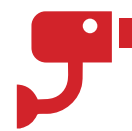

Parking and drop off

Catering for the large number of people living and working in and around the station, it will have around 1100 parking bays, including ACROD, with a dedicated drop-off area. Vehicle access to the car park will be via Beechboro Road North.

Bus interchange

Buses will enter and exit the bus interchange using a separate signalised priority lane from Beechboro Road North, providing regular and reliable transport links from the station to surrounding suburbs.

Safety and security

Active and passive security measures have been considered in the station design. Along with well-lit areas and clear lines of sight, the station will be monitored by transit officers, mobile patrols, CCTV and a 24-hour central monitoring room.

Local community

To improve connections and allow for future development, some changes will take place in the local area.

Local road changes

A bridge will be built at Beechboro Road North to cross the new rail line and connect Malaga Station to nearby areas.

Pedestrian and cycle connectivity

A new footbridge will be built across Tonkin Highway at Ballajura, to provide cyclists and pedestrians access to the station precinct.

New shared path connections will link Beechboro Road North to Whiteman Park and Marshall Road.

Future developments

We are working with community, state and local government to develop the draft Malaga Station Precinct Structure Plan which will guide future development of the Malaga Station Precinct over the next 30 years.

Station snapshot*

21 min Journey to Perth	2 zone fare	Lifts and stairs	Kiosk	Universal access
Passenger toilets	1100 Parking bays (including ACROD)	12 Bus stands	Secure bike shelters
